

Tariff for Re-Location, Repair and Replacement and Removal of First Termination Point for Non-Residential Premises

1. The following services are available to Non-Residential End-Users :
 - (i) Re-location;
 - (ii) Repair; or
 - (iii) Removal of First Termination Point (“1st TP”) and/or fibre cables

Re-location of First Termination Point (“1st TP”)

2. Re-location of 1st TP will entail the installation of a new fibre cable and new Termination Point to a location as advised by the Non-Residential End-User. NetLink Trust will attempt to remove the existing TP only upon request by the Non-Residential End-User. Otherwise, the existing TP and trunking will be left intact and will not be taken away.

Repair of 1st TP

3. Repair of 1st TP will entail the replacement of the existing TP and/or fibre cable with a new set of TP and/or fibre cable. NetLink Trust will recover the existing TP and/or fibre cable and the new TP and/or fibre cable will be installed within existing trunking/casement.

Removal of 1st TP

4. Removal of existing 1st TP and fibre cables will be subject to site conditions, such as accessibility of the existing TP and/or fibre cable. NetLink Trust will use reasonable efforts to minimise possible damage to the wall and/or other fittings during TP removal. Holes that are exposed on walls due to TP removal will be patched with white cement or plaster, without any painting. Subject to site conditions, NetLink Trust will attempt to remove the trunking only if it is solely used to house NetLink Trust’s fibre cable.
5. The tariffs for relocation, repair and replacement, and removal of termination points and/or fibre cables are as follow:

Description	Charges (S\$) *
Request for <ol style="list-style-type: none"> i. Relocation; ii. Repair; or iii. Removal of 1st TP and/or fibre cables 	\$363 per request
