

**List of Data Centres (Updated December 2021)**

**Aim**

1. This document is to be read together with Customised Agreement with Requesting Licensee (“RL”) or Tariff with Qualifying Persons (“QP”) for Provision of Data Centres (“DC”) Connections For Enterprise Services.
2. It shall provide the most up to date list of DC at which telecommunications equipment belonging to the RLs /QPs is installed

**Background**

1. RL or QP shall indicate the eligible DC on the Request as the A-end and/or B-end of a DC Connection
2. Where a DC Connection serves a DC that falls under Category A in Table 1, the estimated period required by NetLink Trust to provision that DC Connection using the existing NetLink Trust infrastructure is one (1) calendar month, and approximately three (3) calendar months are required to provision a DC Connection where there is no existing NetLink Trust infrastructure.
3. Where a DC Connection serves a DC that falls under category B in Table 2, NetLink Trust will work directly with the relevant Direct End-User to establish an agreeable timeline.
4. The RL or QP acknowledges and accepts that the aforementioned timelines are purely indicative, and that the actual time required to provision each DC Connection shall depend on the availability of access to the TP location, actual site conditions, the grant of the necessary licences, permits, consents, waivers and authorization by the relevant building management or any other party, and any unforeseen circumstances beyond the control of NetLink Trust.
